

## Choose the right axe for the right job

### Application area

1. Hobby. For the car and boat.  
Cuts branches and small boughs as well as split small logs.  
Chop sticks, and the like.
2. General lighter chopping.
3. Wood chopping. Heavier wood splitting.
4. Chopping in general.
5. Carpentry chopping of dry timber. Adjustment work. Thin blade.
6. Splitting very heavy and cross-grained wood.  
With sledge neck to hit a wood-chopper's wedge.
